

REAL SCALES

Model trains are built in a variety of different scales. These scales include the G Scale, O Scale, HO Scale and the N scale.

Write the following model train scales as a sentence. The first one is done for you.

Train A - G Scale 1:22.5

Train A is 22.5 times smaller than a real train.

Train B - O Scale 1:48

Train C - HO Scale 1:87

Train B - N Scale 1:160
